All prices include consultation for design, fabric choice, and measurements, followed by a final fitting session. Any basic alterations (hem, fit adjustments) determined at time of final fitting are included in garment price. Design changes and accessories, including but not limited to bustle, petticoat or veil, will be in addition to the base cost of the garment.

**Embellishments:** The difference between Level 1, 2 and 3 embellishments is typically a matter of coverage. Crystals, sequins, trims and other similar items require time-intensive application by hand. For example, a dress or corset bodice that is fully covered with crystals would be a Level 3 embellishments. Level 2 coverage would be substantially less "bling."

**Premium versus Standard Fabrics:** Silk, brocade, velvet, even some premium polyester fabrics can influence the cost of any garment. However, there are many equally beautiful lower cost fabrics that mimic their high-end twins. You will not need to choose between beauty and cost.
